

"The alerting, reporting, and consistent up-time of Facilities Manager are outstanding and contribute largely to our success."

Buddy Carpenito - Senior Partner/Owner, Print Administrative

PRINT AUDIT

Facilities Manager

Get the most accurate meter reads!

Period.

Print Audit® Facilities Manager is designed to remotely collect meter reads, automate supply fulfillment and report service information for managing fleets of printers & multi-function devices.

Add value to your product offering while ensuring your customer's loyalty and increasing your profits!

PRINT AUDIT® FACILITIES MANAGER

Print Audit is the **ONLY** print management company that has developed partnerships with all of the major office equipment manufacturers. This ensures Facilities Manager can access vital information to produce the **most accurate** scan results in the industry.

KEY BENEFITS

Automate your Supplies and Service Management

- ▶ Utilize the most sophisticated supplies and service alerting in the industry
- ▶ Automatically collect meter reading & cost information
- ▶ Easily export data into third party accounting systems

Increase Profitability

- ▶ Reduce downtime with powerful service & status alerts
- ▶ Automated real-time supplies and service capabilities can notify you when your customers have issues
- ▶ Track total cost of operation & pinpoint costly devices in need of replacement

Ensure Customer Loyalty

- ▶ Offer just in time supplies and service delivery
- ▶ Track issues on all devices including those belonging to competitors
- ▶ Ensure your devices run smoothly for increased customer satisfaction

PRINT AUDIT Facilities Manager

"With page counts, service alerts and supply levels all delivered conveniently through the email and desktop interface, our customers receive great value with Print Audit® through efficient toner usage and quick service response."

Katty F. Hacmac - Production Workflow Consultant
Loffler Companies, Inc.

TECHNICAL ADVANTAGES

SMART ALERT SYSTEM

- ▶ Powerful filtering capabilities inform you at the right time — not all the time
- ▶ Gives you the power to configure your alerting needs
- ▶ Accurately predicts number of days to toner depletion

FLEXIBLE ACCESS & REPORTING OPTIONS

- ▶ Easy to use, customizable reporting
- ▶ Learn how much money you are making (or losing) on each of your devices
- ▶ Cloud-based system that is easy to access (from any browser) by anyone with security permissions
